Home broadband/mobile has become Comcast's 'lead bundle,' CFO says

The focus on wireless is as high as it's ever been," Cavanagh said, noting that Xfinity Mobile has become "deeply embedded" into Comcast's cable operations.

Comcast added 318,000 mobile lines in Q1 2022, ending the period with 4.29 million.

"We think [mobile] is going to be a primary part of our offering and advantage in the marketplace for quite some time," Cavanagh said. "With 4 million lines and about 2 million households [subscribing to Xfinity mobile] of 34 million total customer relationships, we've got a way to go."

Altice USA won't ditch HFC just yet

Despite its accelerated drive to build fiber lines throughout its regions, Altice USA has no plans to junk its legacy hybrid fiber-coax (HFC) network any time soon.

Altice USA CFO Michael Grau made that point clear last week. Speaking at the JP Morgan Global Technology, Media and Communications Conference in New York,

Grau said the nation's third-largest MSO intends to keep its cable plant intact even as it continues to expand fiber-to-the-home (FTTH) aggressively throughout its territories over the next few years.

Grau explained that Altice USA is in no hurry to ditch its legacy HFC plant because it "would take some time" to migrate all its current HFC subscribers over to the new fiber networks. So far, the operator has focused on recruiting new subscribers for its FTTH networks, not switching current subscribers.

GREAT LAKES CHAPTER WEBINAR

SCTE

GREAT LAKES CHAPTER

PRESENTS:

Critical Infrastructure: Building Design Fundamentals

Wed, Jun 22, 2022 1:00 PM - 2:00 PM EDT

Register Now!

Eddy Rodriguez

First generation Hispanic born and raised in Saginaw, Michigan married with four children.

Education: BSCE Lawrence Institute of Technology

Work Experience:

- Structural Engineer: Albert Kahn Associates
- Garrison Company: Project Manager/Estimator
- Pumford Construction: Principal & Customer Relations
- Maicom LLC: Design Engineer/Project Manager
- Comcast: Manager - Critical Infrastructure

SCTE CHAPTER WEBINARS

Share training opportunities with your chapter members by sending a meeting notice at least 3 weeks in advance. Hosting chapters will earn credit for the chapter's attendees, plus credit for hosting a webinar and teamwork points if other chapters participate. Participating chapters will earn technical training hours for their members if at least five chapter members participate. Note: if the training isn't hosted through the SCTE Chapters webinar account, you will need to work with the hosting organization to obtain a list of attendees from your chapter. We are unable to provide attendee info for events not hosted through the Chapters department. See the full chapter training schedule at scte.org.

- [Gateway Chapter OFDM Deep Dive](#) on June 21
- [Great Lakes Chapter Critical Infrastructure](#) on June 22
- [Five Rivers Chapter Basics of Broadband Outside Plant Powering](#) on June 23
- [Central Indiana Chapter EPON Network Distribution](#) on June 29
- [Great Lakes Chapter Plant Design Software Overview](#) on July 14

Chapters can organize a training utilizing recordings of webinars presented by other chapters. The [full archive](#) is available to members as a benefit of membership

SCTE Certifications

SCTE•ISBE CERTIFICATIONS

www.scte.org/certification

SCTE•ISBE HAS INDUSTRY CERTIFICATIONS FOR ALL AREAS OF THE CABLE NETWORK

SCTE • ISBE

SCTE-ISBE Great Lakes Chapter Certification

- We are still accepting certification requests.
- Please email scteglc@outlook.com with “Certification” in the subject.
- A Great Lakes Board Member will contact you and schedule testing
 1. Testing will be proctored in person.
 2. Social distancing will be observed & PPE will be worn during testing.
